## EDUCATIONS

- **KPR COLLEGE OF ARTS SCIENCE  
AND RESEARCH** 2023-2026

Bachelor of science in Computer  
Science with Data Analytics

- **HIGHER SECONDARY** 2022-2023  
Computer Application  
*Percentage : 84.5%*

## SKILLS

- C
- C++
- Python(basic)
- Time Management
- Adaptability
- Team Work

## OBJECTIVE

A highly motivated and enthusiastic recent graduate with a degree in Computer Science seeking an entry-level position in software development. Eager to apply academic knowledge and develop practical skills in coding and problem-solving, while contributing to the success of a dynamic team and growing professionally.

## PROJECTS

- **Water Sensor Alarm for Electronic Appliances:**  
Developed a hardware-based water sensor system with an integrated alarm to detect water near electronic appliances, enhancing safety and preventing hazards.
- **Automatic Rotating Solar Panel:**  
Designed a solar panel system with automatic sun-tracking using sensors and motors to maximize energy efficiency and optimize solar energy collection.

## INTERNSHIP

- **Python Programming**  
Completed a 15-day internship, gaining hands-on experience with real-time projects and practical applications of Python programming. Acquired skills in coding, debugging, and implementing Python-based solutions. Successfully earned a certificate of completion, demonstrating proficiency and commitment to learning.

## AREA OF INTRESTS

- **Data Science**  
As a fresher, I am keenly interested in Data Science, focusing on data analysis, visualization, and deriving actionable insights. I am enthusiastic about exploring tools like Python, SQL, and machine learning techniques to solve real-world problems. Eager to learn and apply analytical skills to contribute to data-driven decision-making in a professional setting.

## WORKSHOP

Attended a Five-days International Workshop on "Machine Learning Algorithms for Sentimental Analysis"
